1 Create Student-Quiz activity

Create a Student-Quiz activity has no difference to other activities. Go to your course and press on the “**Turn editing on**” button. Choose your topic where you want the new Student-Quiz activity and press “**+ Add an activity or resource**” on the right side.

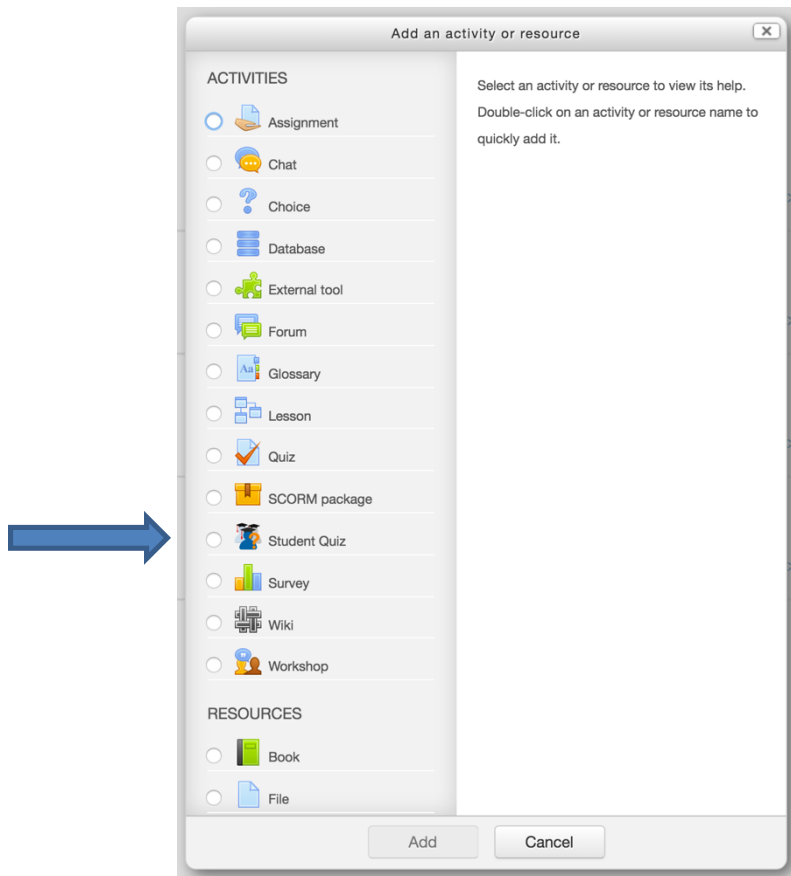

Figure 1: Add new Student-Quiz activity

Choose Student-Quiz and press “**Add**”. Give a name to the new activity. The Advanced settings is important. You have two options that you can configure.

1.1 Student anonymizer

The first option is Student anonymizer. This option activated anonymize the created by column in the question overview and the names of other students in the ranking table. Students cannot search for first- or lastname.

1.2 Rating and Comment

This option is missing when the Student-Quiz Question-Behavior plugin is not installed. On this case please contact your Moodle administrator to install it. This option activated adds the rating and comment behavior to the Quiz. It is recommended to activate this option.

2 Quiz and Questions

The Quiz and Question view is identical for you as teacher with one exception. You can edit / delete any question.

4 Import / Export

If you want to import to the Student-Quiz activity, please notice that you the exported question from the Question-Bank are without category or context exported.

▼ General

Export category ⓘ ⌵

→ ☐ Write category to file ☐ Write context to file

Figure 4: Export Question-Bank

If you use the export from Student-Quiz this option are missing so you cannot do anything wrong.

5 Question-Bank

In the navigation is an additional menu “Question bank”. This menu links to the course question bank with correct ids to show the questions added in the activity correctly.
