Student-Quiz

1 Student-Quiz Question Behavior

For the best work of the Student-Quiz Plugin use:

https://github.com/frankkoch/moodle-qbehaviour_studentquiz

The question behavior plugin adds the ability to rate and comment questions. Install this plugin afterwards.

2 Installation

The Student-Quiz plugin depends on the Quiz plugin (default installed). Be sure the plugin is installed.

The simplest way to install the Student-Quiz plugin is by going to the Site administration -> Plugins -> Install plugins page.

Important: The zip and the folder name in the zip have to be named "Studentquiz".

3 Settings

You can setup the points where given in the raking table. For more information about the ranking table look at the User-Manual chapter 2.1.
